

TAHOMA—GEO EOC

Student Support for EOC Geometry using the HOLT Resources

Our secondary math curriculum for the school district takes advantage of Holt Mathematics as a text resource. There are both print and on-line resources our students all have access to. As students prepare for the End of Course Exams in Geometry we wouldn't want them to simply "go through the book". Instead, students should work in a more targeted way on exactly the math skills that will be assessed. This flyer provides a list of chapters and lessons for students to focus on during their review to make their time investment as productive as possible. Students needing help on lessons can access the after school support offered.

AFTER SCHOOL

Tahoma Junior High

Every Tuesday & Wednesday
2:20pm—3:20pm (after school)
Location: 200 wing
Activity bus is available

Tahoma Senior High School

Every Tuesday & Thursday
7:30am—8:10am (before school)
2:50pm—3:35pm (after school)
Every Wednesday
2:15pm—2:45pm (Tutorial)

HOLT ON-LINE RESOURCES

HOLT on-line math resources for
Algebra and Geometry

GEOMETRY EOC REVIEW

Some of the biggest focus areas for the Geometry EOC are **Proving and Applying Properties of 2-Dimensional Figures**

Holt Chapters for Emphasis

- Chapter 4: All lessons
- Chapter 5: All Lessons, emphasis on 5-7 and 5-8
- Chapter 6: Lessons 6-1, 6-2, 6-3
- Chapter 7: Lessons 7-4
- Chapter 8: Lessons 8-2, 8-3, 8-4, 8-5,
Emphasis on 8-2 and 8-3

Students should do lessons and then take the
interactive practice tests.

Holt McDougal Geometry

Chapter 4: Triangle Congruence

Chapter C

Student Resources

Videos & Activities

Chapter 4: Triangle Congruence

Chapter Resources

Chapter 4: Triangle Congruence

Practice and Notetaking

- Interactive Practice Test
- Extra Practice
- Know-It Notebook
- Spanish Summary & Review

Common Core Resources

- Lesson 4-1A Congruence and Transformations
 - SE Pages
 - Practice B
 - Problem Solving
- Extension 4-6A Lines and Slopes
 - SE Pages

Lesson Resources

- + Lesson 1 Classifying Triangles
- + Lesson 2 Angle Relationships in Triangles
- + Lesson 3 Congruent Triangles
- + Lesson 4 Triangle Congruence: SSS and SAS
- + Lesson 5 Triangle Congruence: ASA, AAS, and HL
- + Lesson 6 Triangle Congruence: CPCTC
- + Lesson 7 Introduction to Coordinate Proof
- + Lesson 8 Isosceles and Equilateral Triangles
